1 Introduction

1.1 Abstract

Image with caption which can be referenced [1] in the text

Figure 1: MSE Logo

1.1.1 Some tables

Citations can be done easily like this [1]. The key can easily be generated using Zotero Better BibTeX.

Name	Pricing	Remarks
Pandoc	Free	Seems to work goodly
Markdown	Free	Not as fancy as LaTeX

1.1.2 Code

```
1 # Note: this may not be the latest version
2
3 #!/bin/sh
4 pandoc \
5     src/main.md \
6     --to latex \
7     --from markdown \
8     --template src/templates/eisvogel-mse.latex \
9     --csl src/templates/ieee.csl \
10    --filter pandoc-include \
11    --filter pandoc-crossref \
12    --citeproc \
13    --pdf-engine pdflatex \
14    --output build/report.pdf
```

2 Analysis

2.1 State of the Art

The art is very stateful today

2.2 Risks

Not that many

3 Conception

3.1 Project management

A few word on how good our pipelines were

3.2 UMLs

3.2.1 Class diagram

Look at all the rectangles

4 Implementation

4.1 Encountered issues

The first problem we encountered was related to the fact that we wanted to use the Eisevogel template, which is not compatible with the HES-SO requirements. We had to adapt the template to make it work. We also had to adapt the template to make it work with the HES-SO requirements.

5 Results

5.1 Encountered problems

We ran into some

6 Conclusion

A few good words on how good our pipelines were Look at all the rectangles

6.1 Thanks

I would like to thanks the people for their help

7 Appendices

7.1 Appendices

- Cool document 1.ts
